

# March Kindergarten Newsletter

## ***What's Happening in Class?***

Kindergarten is GROWING!! The reading and writing is beginning to flourish. This month our focus is on blending digraphs and to become more independent with writing and reading. Our math concepts are adding and subtracting, ordinal numbers and shapes.

For Science we are beginning a unit on insects. In Social Studies, our focus is Geography. We will be learning about directions and a variety of map skills.

Lent and the Hail Mary Prayer continue to be at the top of our Religion lessons. We will finish off the month with the lessons on the Triduum.

## ***Important Dates***
